

LKD 2249/ST

REAR STATIC DIRECTION INDICATOR LKD 2249/ST DANE TECHNICZNE

Light colour	Light group	Light category
amber	HOR 86E	direction indicator
Rear direction indicator	Ingress protection rating	LED light
yes	IP 68	yes
LED quantity	Power rating	Supply voltage
12	2,1/2,5 W	12/24 V
Cable	Side	Operating temperature range
2x0,75 mm2; cable length 1 m	universal	from -30°C to +50°C

OPIS

Reliability, safety, and versatility in one solution. The **LKD 2249/ST** model is a high-quality **static LED rear indicator**, designed with maximum functionality and durability in mind. Equipped with **12 efficient LEDs**, the lamp delivers a clear light signal that enhances vehicle visibility and road safety - both day and night, in all weather conditions. Its **IP 68**-rated housing ensures complete resistance to dust and water, making it ideal for use in harsh environments, including road transport, agriculture, and industry. The lamp operates reliably across a **wide temperature range** and features a universal design that allows for horizontal or vertical mounting on either side of the vehicle. Thanks to its low rated power consumption (**2,1/2,5 W**), the lamp is highly energy-efficient, helping extend the lifespan of electrical systems. The **12/24 V** power supply makes it compatible with most vehicles available on the market. **Applications:** Perfect for trucks, construction and agricultural machinery, and all utility vehicles requiring durable directional lighting. Choose quality and safety - equip your vehicle with the **LKD 2249/ST**!
