OPIS

The rear multifunction light **HEAVY DUTY with reflective device and electrical conduit LZD 2856 (left)** has been designed to be durable and efficient. Featuring **replaceable LED modules**, this light offers **139 light-emitting diodes** and operates at a supply voltage of **24 V**, offering strong and clear illumination. **Multifunction light functions:** – position light (4 W), – break light (10 W), – rear direction indicator light (5,5 W), – reversing light (4 W), – fog light (5,5 W), – and a reflecting device, providing comprehensive lighting for tractors, trucks, vans, agricultural and specialist vehicles and recovery vehicles. The light modules also have a high **IP 68** rating and an operating temperature range of **from -30 to +50 degrees**, so the light is perfect for use in a variety of weather conditions. As an extra benefit, the light also provides electromagnetic compatibility **EMC**. As a result, you don't need to worry about electromagnetic interference that could affect other equipment in your vehicle. The **LZD 2856** multifunction light is a perfect solution for anyone looking for a durable, efficient and functional light for their vehicle. Whatever the weather or terrain, this light will offer reliable illumination and safety on the road.
