OPIS

LD 3171 is a three-function marker lamp that comes with a flexible hanger and compact dimensions. It is specifically designed for mounting **on the left side of the vehicles**, ranging from small trailers to trucks and trailers. The lamp operates on a universal voltage of **12/24 V** and is characterized by low power consumption. Only branded diodes are used for production, which definitely distinguish the quality of lighting and attractively emphasize the outline of a moving vehicle. **Lamp functions:** – rear position light (red light color) – 6 diodes – front position light (white light color) – 6 diodes – side marker light (orange light color) – 4 diodes. Product is fully hermetic (ingress protection rating **IP 68**), and the operating temperature range is **from -30 degrees C to +50 degrees C**. This product will meet the expectations of even the most demanding users who are looking for reliable and durable solutions for their vehicles.
