

LZD 2854

REAR MULTIFUNCTION LIGHT HEAVY DUTY WITH REFLECTIVE DEVICE LZD 2854

DANE TECHNICZNE

Light group	Light category	Rear direction indicator
HOR 129	multifunction rear	yes
Ingress protection rating	LED light	LED quantity
IP 68	yes	139
Supply voltage	Reflecting device	Cable
24 V	yes	6×0,5 mm ² ; cable length 1,5 m
Side	Reversing light	Brake light
left	yes	yes
Rear position light	Fog light	Operating temperature range
yes	yes	from -30°C to +50°C

OPIS

The **Heavy Duty LZD 2854 (left)** rear multifunction lamp has been designed with durability, performance and efficiency in mind. Featuring **replaceable LED modules**, this lamp offers **139 diodes** and operates at a supply voltage of **24 V**, providing a strong and distinct illumination. **Functions:** – position light (4 W), – brake light (10 W), – rear direction indicator (5,5 W), – reversing light (4 W), – fog light (5,5 W), – and reflective device, providing comprehensive lighting for truck tractors, trucks, vans, agricultural machines and special vehicles, as well as tow trucks. The lamp modules also have a high **IP 68** ingress protection rating and an operating temperature range from **-30 to +50** degrees, making them exceptionally suited for use under various weather conditions. In addition to this, they offer electromagnetic compatibility (**EMC**), which stands as an additional advantage of these lights. As a result, there are no concerns regarding electromagnetic interference that could potentially affect other devices within the vehicle. The **LZD 2854** multifunction lamp is a perfect choice for those who are looking for a durable, efficient and practical lighting for their vehicle. Regardless of weather and terrain conditions, this lamp will provide reliable lighting and safety on the road.
