OPIS

LD 2995 is a three-function marker lamp on a long diagonal arm, designed to be mounted **on the right side of the vehicle**. The lamp operates on a universal voltage of **12/24 V** and is characterized by low power consumption. Only branded diodes are used for production, which definitely distinguish the quality of lighting and attractively emphasize the outline of a moving vehicle. LD 2995 with an interesting design is intended for use in trucks and agricultural machines, trailers and semi-trailers. **Lamp functions:** - rear position light (red light color) - 6 diodes - front position light (white light color) - 6 diodes - side marker light (orange light color) - 4 diodes Product is fully hermetic (ingress protection rating **IP 68**), and the operating temperature range is from -30 degrees C to +50 degrees C. **Ensure your safety on the road! Identify your vehicle with LED [new arrivals](#) by #Horpol!**
